

Sadly, I have to tell you that there has been a despicable burglary on Monday evening of this week in Fox Covert Drive - Roade...

A thief entered a home through an unlocked window (while the 82 year old lady owner was in the house) and stole cash... A similar burglary occurred in Towcester earlier that evening where a 92 year old victim was also robbed of cash...

Please contact all of your elderly and vulnerable neighbours (in fact all of your neighbours) and ask them to always ensure that the windows and doors are kept locked - plus the garage and shed doors too.

There has been a spate of this kind of activity over the last few days particularly on our Western Area - please try to encourage your friends and neighbours to help us all by being extra vigilant.

Please also be on the lookout for anyone touring your street - road or close etc who might be sizing up our elderly friends and neighbours... Anything or anyone that looks strange or suspicious... ***please ring it in on 432436...***
